Output Formatting for Assignment 3

February 15, 2016

Disclaimer: no Word, OpenOffice, LibreOffice or similar. Thanks!

- Put all the required files of Week 3 in a folder named A3-Lastname.

- for Exercise 1, two files:

  - a text file **sol1-explain**, containing the explanations
  - a text file **sol1-computation**, with format specified in Appendix A

- for Exercise 2, one text file **sol2**, free content.

- for Exercise 3, three text files: **sol3-1**, **sol3-2** and file **sol3-explain**. **sol3-tree1** and **sol3-tree2** describe the output for question 3.1 and 3.2 respectively, as described in Appendix B. **sol3-explain** contains the corresponding explanations and all the other answers, in free format.

- for Exercise 4, one text file **sol4**, free content.

- for Exercise 5, one text file **sol5**, free content.

- for Exercise 6, one text file **sol6**, free content.

Zip the A3-Lastname folder and submit it on Moodle.

Appendix A

Output one figure per line:

Answer of 1
Answer of 2
Answer of 3
Answer of 4

Decimal separators:
4.5: four and a half
5000: five thousand

Appendix B

Output one number per line, in the order by which they are output by the algorithm.
